PRODUCT OVERVIEW 154-221

A FASCINATION FOR THE BATHROOM

Hartmut Dalheimer, Managing Director

Engelbert Himrich, Managing Partner

Sensuousness and sensibility – KEUCO's passion for the bathroom runs through its veins, and this is evident in our products. A KEUCO bathroom awakens the emotions. It is an intimate place of well-being. It conveys elegance and luxury, and it combines aesthetics, ergonomics and functionality.

In no other room is this challenge more exciting and demanding than the bathroom. That is why this fascination still drives us forward. Since its founding in the year 1953, our company, which is still family-run today, has undergone a rapid and sustained transformation. From market leader for high quality bathroom accessories, KEUCO has evolved into the brand for the bathroom, with a wide assortment of furniture, fittings, accessories and mirror cabinets and from our early days we focused on offering concepts of complete bathroom furnishings.

Important factors contributing to our success are the contemporary, technically innovative products, the highest standard of quality, a clear orientation towards design, and state-of-the-art manufacturing facilities. Today, KEUCO products are sold around the world, and are market leaders in many areas. They are the result of intensive development work, the use of the best materials, and the most careful workmanship. We combine high-tech manufacturing and involved hand craftsmanship to achieve optimum results. KEUCO quality sets standards: Our products will convince you by their immaculate surfaces, maximum longevity, and perfect functionality. Each article is examined individually before being shipped out.

At KEUCO, the subject of design already played a pivotal role long before it even became a general topic of conversation. Our understanding of design involves striving to achieve classic-modern aesthetics that retain their contemporary feel, even after many years of use. Whether designed in-house or in cooperation with internationally recognized designers – KEUCO products are regularly distinguished by renowned awards.

But timeless design and long-lasting product quality are only two aspects of our sustainability philosophy. Equally important are responsible company management, and resource-saving production – with the help of our own water conditioning system for our electroplating plant, for example. We view the label "Made in Germany" as commitment to the kind of company management that aims to secure jobs in the long term.

KEUCO products are made in our own production plants in Hemer, Gütersloh and Bünde. Inland production provides us with a close proximity that is essential, so that we can develop and utilize the know-how of our employees on a long term basis, and so achieve seamless quality management. And that makes "Made in Germany" a promise of quality.

FREEDOM IS
HAVING A VARIETY
OF POSSIBILITIES

PURE DESIGN – BUT NOT PURITANICAL

The renowned design agency Tesseraux+Partner was commissioned to design EDITION 11. At first glance and at every use the fittings and accessories convey a feeling of: Here is where perfect quality can be found.

The immaculate, hand-polished surfaces, the most careful of workmanship, the most modern of technology, corrosion-free fasteners, and the meticulous checks for leak-proof results on each individual fitting: Only this way a quality grade can be achieved at a level that one can see, appreciate, and which constantly pays off.

CLEAR LINES, IMMACULATE SURFACES

The perfect chrome-plated washbasin fittings of EDITION 11 are optimally suited for every kind of use. Whether as a smaller model for the guest WC or especially high for washbasin tops and convenient hair-washing – they fulfil any wish regarding individual bathroom planning.

As with all EDITION 11 washbasin fittings, the wall fitting with single-lever mixer has a flow rate limiter. It is available with three different length spouts.

Three-hole fittings with a difference: Temperature regulation on the left, flow rate on the right. After adjusting to your own desired temperature, by pulling it up, the regulator can be returned to its initial position so that the temperature setting is retained.

The particularly appealing design of the freestanding bath tub mixer with a separate waterway for the hand shower is very impressive. A gem in the bathroom, it can be combined with numerous bath tubs and, no matter what one's personal interior design is, gives every bathroom a special touch.

Shower rail and hand shower reiterate the weightless elegance of the design of EDITION 11. In the four-hole bath-edge fitting with hand held pencil shower head the basic quadratic form of EDITION 11 is reflected in the decor disc. The bath tub mixer shines in immaculate chrome lustre, with flow and temperature regulators situated on the side.

SELECTED SHAPES IN EVERY DETAIL

KEUCO's typically large variety of products offers a rich selection for attractive bathroom furnishing. For hanging up towels alone, the assortment ranges from classic double towel holders to chic one-armed towel holders and vertical guest towel holders (along with towel bins) which can hold up to six guest towels. The product range also includes an intelligent towel ring, which has an integrated spacer ensuring that damp towels can dry properly at a sufficiently ventilated distance away from the wall.

The chrome-plated shower basket comes optionally with a conveniently integrated glass squeegee. It is easy to clean, and offers generous space for soaps, shampoos, and similar. Because of its rounded form on the inner surface, the handle, with its concisely crafted edges, has an especially pleasant feel to it.

On the right: Soap holder with removable glass dish and the double tumbler holder with mouth-blown tumblers made of crystal glass.

CLEAR LINES AND SENSUAL FEELING

The freestanding accessories of EDITION 11 radiate power and size and embody sense and sensuality with their high-quality matte porcelain. The unglazed porcelain is individually produced in a complex and meticulous process in Meissen. In total there are four porcelain accessories to choose from. They exert their special appeal in the bathroom when combined together: A soap foam dispenser, a universal pot, a tissue dispenser and an elegant dish.

EDITION 300

CHARACTER INSTEAD OF INDIFFERENCE

A STRIKING, ERGONOMICALLY THOUGHT-THROUGH DESIGN

KEUCO design is determined by aesthetics, functionality and ergonomics, not by the kind of logic that characterizes mass production. The fittings and accessories of EDITION 300 clearly exemplify this philosophy and make it something to be experienced. Convenience of use coupled with striking elegance. The brilliance of the perfectly worked surface emphasizes the characteristic contours.

reddot design award
winner 2006

Tesseraux+Partner
Dominik Tesseraux

COMPELLING VARIETY

The bath-edge fitting is a new development consistent with the EDITION 300 design line. For the shower fittings you can choose between on wall or in-wall installation. All according to your own individual taste and to suit the local construction conditions.

LASTING IMPRESSIONS FOR SHORT STAYS

The guest WC is a special calling card in every house. With its impressive functionality and stylish elegance, EDITION 300 is ideally equipped to leave an excellent impression with your guests. With the small, only slightly projecting washbasin size it's possible to design even guest WCs with much charm. Even the towel holder and the vanity unit with front drawer and integrated towel opening offer much comfort for small rooms.

CONSISTENT COMBINATION MADE EASY

At KEUCO accessories are much more than just useful additions. It is also important that they can be blended in any combination to form a harmonious visual whole, perfectly coordinated to the characteristic design of the rest of the bathroom furnishings. EDITION 300 does this beautifully.

ELEGANCE

VARIETY AS A PRINCIPLE

THE DESIGN CLASSIC WITH PROFILE

Initially begun in 1967 purely as line of accessories, ELEGANCE established itself internationally over the decades and became the biggest selling bathroom series in the world. Today, ELEGANCE offers a comprehensive assortment with a wide array of models. The demand for ELEGANCE products still remains steady today thanks among other things to its timelessly modern design.

.molldesign
Reiner Moll

EFFUSIVE FLEXIBILITY

Combinations à la carte: Shower solutions can be flexibly adjusted to suit all spaces and your personal preferences, of course. Hand shower or head shower, flush or surface mounting – the choice is all yours.

Right angles and straight lines, coupled with vibrant curves. As in the entire collection, ELEGANCE fittings convince by their striking, classic-modern design.

Single lever basin mixers are available both for single hole installation as well as a concealed solution. The single lever bath tub mixer for installation on the tub edge rigorously carries on the ELEGANCE aesthetic.

HIGHLIGHTS

A level of quality that one not only sees, but appreciates: ELEGANCE fittings and accessories are perfect down to the finest detail. The special brilliance of the immaculate, hand-polished chrome surfaces transforms their use into an aesthetic experience.

Whether for soap foam or lotion, whether as free-standing or mounted model, ELEGANCE soap dispensers are an attraction in every bathroom. The same goes for the soap holder and tumbler holder.

ELEGANCE accessories bring aesthetics, ergonomics and ease of cleaning under one umbrella. All metal parts are chrome-plated to a high standard of quality. The soap foam dispenser is made of matt opal glass; the lotion dispenser and the toothbrush tumbler are made of matt crystal glass. The matt crystal dish can be removed for cleaning from the soap dish on the right.

The ELEGANCE rail system brings elegant comfort into the bathroom: The rail system can be combined as needed with the existing bathroom furnishings.

The matching shower curtains from KEUCO are anti-bacterial, fungicidal, antistatic and available in different colours and sizes.

PLAN

THE EVOLUTION OF COMFORT

TIMELESSLY MODERN AND INCREDIBLY VERSATILE

With 450 individual products, PLAN is one of the most extensive bathroom collections in the world. PLAN is as varied as the lifestyles of today and the breadth and depth of its large assortment enables individual, tailored solutions to be found. PLAN leaves nothing to be desired – not from an aesthetic or an ergonomic point of view, as the main focus of the PLAN care range offers an additional wide collection of barrier-free products to choose from.

DESIGN PLUS

.moll
Reiner Moll

PERFECTLY COMBINED – DESIGN AND QUALITY

The fittings are as pleasant to use as is the purity of their forms. Whether chrome-plated, stainless steel, or with aluminium finish: The excellent design and the unmatched quality of PLAN fittings manifest themselves in each individual piece. And fully thought-through design sometimes demonstrates itself in a very discreet way: In the extreme ease of cleaning, for example.

PLAN blue fittings not only shine in terms of their impeccable surfaces and uncompromising functionality, but also with a consistently implemented sustainability concept. PLAN blue fittings help save water and energy in daily use; one example is the flow limiter in the washbasin mixer which limits to six litres per minute.

Thus, the new PLAN blue mixer with pivoting spout is not only a perfect solution for private use, but also for public areas. As a single lever mixer or pillar tap, they stand out in the slim design thanks to their precise design style and low water consumption.

The large variety of PLAN blue products is also reflected in the shower. Depending on your personal taste, the overhead and hand showers come directly out of the wall or, alternatively, from the fitting. And the classic, height-adjustable combined solution is naturally also available.

WARM WELCOME

Overall, PLAN is the most comprehensive and transformable KEUCO collection. This is also evident in the guest WC. The multitude of variations PLAN offers allows you to create elegant solutions even in the smallest of rooms. And the single-lever mixer, the sensor fitting and the pillar tap also set standards in terms of functionality.

EYECATCHER IN EVERY BATHROOM

The wide range of surface variants multiplies the diversity of PLAN even more. Choose from chrome-plated, aluminium and stainless steel. Or between lotion dispensers as free-standing model (left) and the mounted model (top), suitable for installation in the washbasin or washtop.

Innovative, elegant and of uncompromising quality: PLAN accessories stand out aesthetically as well as functionally. On this page: Grab rail, towel holder and towel hooks. The flawless surface of the toilet paper holder on the right delights users.

ELEGANCE FOR THE GENERAL PUBLIC

The PLAN Integral recessed mounting modules for basins and WCs are ideal for high-traffic public sanitary areas. They stand out not only because of their advantages such as ease of cleaning, durability, and easy refilling, but also because of their elegant and understated design.

Top left two washbasin modules – tissue box dispenser and paper towel dispenser along with waste bin. Beside that a WC module with sanitary bag dispenser and sanitary waste bin. In total there are five different modules available, which can be flexibly combined according to need.

HIGH QUALITY, CONVENIENT, BEAUTIFUL

The CARE products on this page can be flexibly combined for sanitation facilities. The PLAN railing system enables, among other things, a shower to be made barrier-free in a jiffy, if need be, thanks to the attachable tip-up seat. The firmly mounted soft seat, 450 mm wide – also available in 360 mm width – meets the requirements of DIN 18040-1.

COLLECTION MOLL

NEW TIMELESSNESS

INSPIRATION AND INNOVATION

The COLLECTION MOLL lets fittings and accessories shine in a new light: An inspiring design, highest innovative details and needless to say, the complete KEUCO competency for precise workmanship and durable quality. The unobtrusive, sleek design gives the collection a lightless and timeless beauty that bears the signature of the designer Reiner Moll, and harmonises with numerous KEUCO washbasin and furniture ranges.

.molldesign
Reiner Moll

FREEDOM LIES IN THE VARIETY

The product diversification of the COLLECTION MOLL is also reflected by the range of fittings. The diverse variety makes sure to find a tailor-made solution for any imaginable constellation. They impress both through their high level of "Made in Germany" quality as well as through their attractive design. The exceptionally high quality level of material and workmanship make the products a sustainable investment. In addition to durable technology and a design style that can be combined in different ways, the on-wall fittings are also characterized by functional elements. They therefore offer useful storage space for bathing and showering utensils near the bath tub or in a shower.

IDEAS RIGHT DOWN TO THE LAST DETAIL

Whether for corners or walls, the shower baskets of COLLECTION MOLL have a removable, break-proof synthetic insert – hygienic and easy to clean.

The sponge basket, with its integrated, retractable shower squeegee, demonstrates what aesthetically technical innovations could look like. After use, the shower squeegee disappears into the sponge basket, which is open at the bottom so water can drain away.

UNAMBIGUOUS ELEGANCE

The COLLECTION MOLL accessories make the washbasin appear like a big stage. The gracefully hovering shelf offers space for all utensils for daily use.

A brilliant chrome finish and solid materiality make the high quality of the fittings and accessories eminently tangible. In addition to the real crystal soap dish and tumbler, the lotion dispenser made of matt glimmering synthetic material – available in white or anthracite – captivates with its ease of care.

One can hang up, hang up or hang up a towel: From a towel ring and double hook, via a single or double-armed towel holder. The COLLECTION MOLL offers a generous collection for an attractive bathroom design style. The towel ring, for example, is made entirely in one piece and its seamless aesthetic stands out. The ergonomically designed towel rail invites to be touched.

Maximum functionality and attention to detail are also special features of COLLECTION MOLL products for the WC – from the toilet paper holder with or without lid, right to the WC brush set, as a wall or floor model: For example, the toilet brush set, in which the brush hangs in the brush holder and therefore avoids looking directly at the brush.

AESTHETIC FOR THE PUBLIC

Thanks to the wide range of COLLECTION MOLL products, the fittings and accessories are not only for private bathrooms, but are also suitable for public places. Therefore the paper towel dispenser with matching waste bin rounds off the range of products especially thought for these places. Each with a mirror front, the elegant ensemble is available in white or anthracite.

SHOWER EXPERIENCE FOR THE SENSES

Comfort and sensuality are at the forefront of this very special solution for shower fittings. The multi-functional concealed thermostat meTime_spa unites everything which one needs for an extraordinary shower experience – not only in an elegant but also innovative way.

The fitting comes in various sizes and, besides chrome-plated control elements to adjust the flow and temperature of the water, it also offers aluminium shelving on one or more levels. So that it integrates into your own personal interior design style in the best possible way, the glass panel is available in white, anthracite, petrol, truffle or cashmere.

Tesseraux+Partner
Dominik Tesseraux

SOOTHING AND REFRESHING SHOWERS

The element of water has always fascinated people. It is particularly fascinating when it takes the form of a waterfall. The aesthetic meTime_spa dousing shower can bring this experience into your own bathroom. The feeling of taking a shower under a waterfall – of allowing the primal power of water act on you – is relaxing for your mind and soul, too. The water treatments inspired by Sebastian Kneipp are perfect for allowing the soothing and relaying effects of water fall on your skin and muscles. With the SPA hose, you can experience the health-promoting alternating hot and cold showers in the privacy of your own bathroom at home and at your leisure.

LITTLE HELPERS WITH A BIG IMPACT

QUALITY AND DESIGN FOR HIGH PERFORMANCE

High-quality materials, excellent workmanship and perfect surfaces – these are the common denominators of all KEUCO accessories. They allow you to perpetuate and effectively accentuate your own personal style of aesthetics in your home. Thanks to their large variety, KEUCO accessories offer the right solution for every kind of bathroom.

ADD NOBLE, GLEAMING ACCENTS

The love of perfection is also reflected in the chrome-plated surfaces of EDITION Palais accessories. Their flawless gloss comes, among other things, from elaborate hand-polishing. Lotion dispenser and tumbler are made of the finest porcelain.

Elegance in circular and spherical shapes: With their decorative discs, ASTOR accessories provide an aristocratic flair in the bathroom. On the right the chrome-plated towel ring. Top: Lotion dispenser made of matt opal glass, tumbler holder with crystal glass tumbler, soap holder with crystal dish, and toilet paper holder with lid.

Urban chic, not just for town houses: CITY.2 adds objective elegance to the bathroom. Thanks to the enormous variety of products the series can satisfy the widest range of demands. Lotion dispenser on the left, on this page a soap dish and towel ring.

A welcome feature in every bathroom: EDITION 11 SELECTION includes four solitary, free-standing accessories made of high quality, matt bisque porcelain – an utensil shelf, a tissue box, a foam soap dispenser and a slender, beautifully shaped general purpose container. With their timeless and choice design, these accessories add elegant highlights to every bathroom concept.

The whole universe of accessories: Our universal articles leave no wish unfulfilled because they offer the proper solution for every need. They are just as suitable for the private area as they are for public areas. Thanks to their practical and functional design and the different variations, they blend harmoniously into every bathroom.

Strong performance: A grab bar with integrated soap dish. Top, moist tissue box, tissue box, and a tip-up seat for maximum comfort while in the bathroom.

Practical, high quality and compatible with any style – discover the diversity of KEUCO's universal articles: Whether toilet paper double holder (right), soap foam dispenser as free-standing model (large picture) or the free-standing models for the WC. The brilliant chrome surfaces of the brush holders and their solid material mean that you can really feel the quality of the workmanship. The solid base with anti-slip mat ensures that it is stable.

Durable, easy-to-clean - and simply beautiful. The huge variety of KEUCO accessory designs carries on with the soap wire baskets. The different shapes, surfaces, dimensions and variants for corner or wall mounting offer the right solution for every hotel bathroom – including practical details such as an integrated glass squeegee (right bottom), which can be easily taken out from the front.

Sometimes simply functional, sometimes full of useful surprises as can be seen on the right with an integrated glass squeegee: KEUCO soap and sponge baskets enchant with their wealth of variants.

COSMETIC MIRRORS

PERSONALITY IN FOCUS

ELEGANT HELPERS

Indispensable for everyone who likes to take a closer look: The wide selection of cosmetic mirrors from KEUCO. Whether with or without light, as floor model or for wall mounting, KEUCO offers the right high-quality and beautifully shaped solution for every preference.

Now that's an eye-catcher: Cosmetic mirrors of every kind and with many kinds of adjustment options. After all, not only should your bathroom look good, but you should too.

The iLook could become your constant companion because it doesn't only suit the bathroom but fits in every handbag. With its battery operated, non-glare LED semiconductor technology and distortion-free optics the iLook meets professional standards. The model offers a wide array of setup options and if desired is also available with wall installation rail and additional mains adapter.

As a practical utensil for your daily beauty routine, KEUCO's cosmetic mirror iLook_move is particularly impressive thanks to its high quality mirror surface and the slim, elegant design – either round or rectangular, with or without light. But also the innovative unusually refined and durable hinge technology leaves nothing to be desired. With only one grip you can adjust the height of the mirror, the distance to your face, turn it to the side and tilt it for an ideal angle. Designed by Tesseraux + Partner, the glare-free lighting technology with a magnification factor of five has an elegant glass touch panel which offers two different light colours: One for daylight, as also used in professional beauty salons and a second light colour, warm white – a flattering light which, for example, is ideal for ensuring your evening make-up is just perfect. What is absolutely unique is that the two light colours are infinitely variable.

DESIGN PLUS
powered by: **ISH**

Whether with one light colour or an elegant glass control panel with touch sensors, the iLook_move is hightech for beauty care and at the same time is also a perfectly shaped gem that gives off a sensual aura of elegance. The LED lamps are durable and power consumption is minimal. If a concealed installation is not possible in your bathroom, then a version with a wall plug transformer is available.

 with ceramic sealing gaskets
 and temperature limiter
 aerator M 21,5 x 1 cache
 Flow rate limited to 7,6 l/min.

53015
Three-hole basin mixer 140
 model with rosettes
 with/without pop-up waste 1 1/4 Inch,
 3-hole installation, 90° head part
 with ceramic sealing gaskets

53004
Single lever basin mixer 150
 without pop-up waste,
 1-hole installation, cartridge mixer
 with ceramic sealing gaskets
 and temperature limiter
 aerator M 21,5 x 1 cache
 Flow rate limited to 7,6 l/min.

53015
Three-hole basin mixer 140
 model with plate,
 gauge 200 mm: with/without pop-up
 waste 1 1/4 Inch,
 gauge 300 mm: with pop-up waste 1 1/4 Inch,
 3-hole installation, 90° head part
 with ceramic sealing gaskets

53010
Single lever basin mixer 210
 with extended spout
 with/without pop-up waste 1 1/4 Inch,
 1-hole installation, cartridge mixer
 with ceramic sealing gaskets
 and temperature limiter
 aerator M 21,5 x 1 cache
 Flow rate limited to 7,6 l/min.

53016
Single lever basin mixer
 concealed fitting
 cartridge mixer with ceramic sealing gaskets
 and temperature limiter
 aerator M 21,5 x 1 cache
 Flow rate limited to 7,6 l/min.

Colour: white
Full length: 670, 1800, 2000 mm
Width: 1400, 1800, 2000, 3000 mm

14945
Shower curtain PLAN*
all sizes are custom made.
Please specify: material, colour, full length and width

***Notes on production characteristics:**
Vertical seams, reinforced stainless steel eyelets, distance between the eyelets approx. 20 cm, roll hem stainless steel weighted, 50 g per metre, complete with curtain rings, white.

Notes on sizes: The sizes indicated are the sizes of the finished curtain. To prevent the curtain from touching the ground we recommend a distance from curtain to floor of approx. 30 mm. Distance between the middle of the curtain rod and the upper edge of the curtain approx. 40 mm. The width of the curtain should be approx. 1.3 to 1.5 times the length of the shower curtain rod.

In accordance with our manufacturer's guarantee declaration, we assume a guarantee of five years for our products, provided that the product was verifiably purchased and installed by a franchised trade dealer.

The guarantee period commences with the date of delivery ex works. The statutory warranty period is included in the guarantee period. This guarantee excludes electrical components and light bulbs.

The extraordinary surface characteristics and extremely fine colour nuances of our products can only be reproduced to a certain degree in print. Only the original KEUCO products, which can be viewed in sanitary trade dealers' showrooms, can provide you with an optimum impression.

Reproduction and copying, even if only excerpts, are only permitted by explicit permission of the manufacturer, and with the inclusion of source information
KEUCO GmbH & Co. KG, Postfach 1365, D-58653 Hemer

We reserve the right to make engineering changes for the purpose of improvement, as well as colour and design changes that are deemed necessary. Errors and omissions excepted.

Our articles are sold exclusively through sanitary wholesale.
